**Short bio**

**June 2020**

Stella Tsani is Assistant Professor at the Department of Economics, University of Ioannina, Greece. She holds a PhD in Economics and Business from the University of Reading, UK. She has more than 10 years of professional experience with multi-sectoral networks across the knowledge triangle. Stella has participated in more than 30 research projects funded by national and international bodies (European Commission FP7 & Horizon 2020, EU Directorates, National Bank of Greece, World Bank, Ministry of the Environment of Cyprus, etc). Her work includes public economics and policy assessment, natural resources with focus on renewables, hydrocarbons and water, Water-Energy-Food-Ecosystems Nexus, sustainable development, institutions, labour markets, technology innovation, economy energy and environmental modelling and scenario analysis, micro- and macro- economics. She has consulted nationally and internationally in sustainable development, energy, environment and public policy issues. Her publications appear in peer reviewed journals (Economics Letters, Energy Economics, Economic Systems, Science of the Total Environment, Resources Policy, etc.), in edited volumes and in the media.
